SWIFT Wireless AV Base

General

The **NOTIFIER SWIFT® AV bases WAV-CRL, WAV-CWL, WAV-RL, and WAV-WL** are intended for use with compatible System Sensor L-Series AV notification appliances to meet a comprehensive range of notification requirements. The AV Base provides power for the audio and visual signals and supports wireless communication with the Fire Alarm Control Panel (FACP). The L-Series AV notification appliance is mounted directly to the wireless AV base allowing flexibility in color, placement and signal output.

Power is supplied through two sets of 4 batteries – one set provides power for wireless communication, and the other set provides power for the notification appliance's audio and/or visual signal. Battery life of the wireless portion is UL listed for at least 2 years. Battery life for the AV set of batteries depends upon the activation time and output level of the audio or visual signal. The AV base boosts output voltage to support 24 VDC options on connected devices.

The SWIFT synchronization module (W-SYNC) can be used to provide audio and visual synchronization between SWIFT notification appliances and System Sensor wired notification appliances. The wireless synchronization module operates from 24 V power with supplemental battery support and communicates through the mesh network to the gateway and FACP. Synchronization is only available with notification appliances that use the System Sensor synchronization protocol. Synchronization of the SWIFT notification appliances within a single mesh network is inherent in the wireless system and a wireless synchronization module is not needed. The W-SYNC also provides wireless control and monitoring of a Notification Appliance Circuit (NAC) expander or power supply.

SWIFT SYSTEM OVERVIEW

The SWIFT Smart Wireless Integrated Fire Technology wireless system offers intelligent (addressable) devices which provide secure, reliable communication to the Fire Alarm Control Panel (FACP) across a Class A mesh network. Wireless devices create an opportunity for applications where it is costly (concrete walls/ceilings, buried wires), obtrusive (surface mount conduit), or possibly dangerous (asbestos) to use traditional wired devices. It allows fast installation for time-critical situations and provides the flexibility to add wireless onto wired systems for retrofit installations. Both wired and wireless devices can be present on the same FACP for an integrated solution.

The mesh network within the SWIFT system creates a child-parent relationship between the devices so that each device has two parents providing a second path for communications on every device. If one device can no longer operate for any reason, the rest of the devices can still communicate with each other, directly or through one or more intermediate devices. Once an initial mesh network is formed, mesh restructuring automatically occurs to find the strongest paths possible within the network.

Features

- Converts compatible System Sensor L-Series AV appliances to addressable wireless AV appliances
- Wireless installation
- Class A mesh network
- Addressable code wheels
- Commercial applications
- Listed to UL 464, UL 1638, and UL 1971
- Frequency hopping
- Bi-Directional Communications

Specifications

PHYSICAL/OPERATING SPECIFICATIONS

- **Dimensions (Ceiling):** Diameter 7.4" (19 cm); Depth 1.6" (4 cm)
- **Weight:** 20.0 oz (567 g) installed with 8 batteries

ELECTRICAL SPECIFICATIONS

- **Maximum Transmit RF Power:** 17 dBm
- **Radio Frequency Range:** 902-928 MHz
- **Operating Humidity Range:** 10% to 93% Relative Humidity, Non-condensing
- **Operating Temperature Range:** 32°F to 120°F (0°C to 49°C)
- **Battery Type:** 8 Panasonic® CR123A or 8 Duracell® DL123A
- **Battery Life:**
  RF batteries: 2 year minimum.
  AV batteries: See battery life table.
- **Battery Replacement:** Replace during annual maintenance or when TROUBLE BATTERY LOW displays.

Ordering Information

- **W-BATCART:** Wireless battery cartridge 10-pack
- **SMB500-WH:** White surface mount back box
- **WAV-CRL:** Wireless AV base, ceiling, red
- **WAV-CWL:** Wireless AV base, ceiling, white
- **WAV-RL*:** Wireless AV base, wall, red
- **WAV-WL*:** Wireless AV base, wall, white
- **W-SYNC:** Wireless sync module

*NOTE: WAV-RL & WAV-WL are compatible with wall-mount L-Series devices manufactured after 26 April 2019 (date code 9045 and later). WAV-CRL and WAV-CWL are compatible with all ceiling-mount L-Series devices.

COMPATIBLE EQUIPMENT

Note: ULC-listed models have all required languages.

Model (UL listed)	Model (ULC listed)	Description
CHRL	CHRLA*	Chime Red Wall
CHSCRL	CHSCRLA*	Chime/Strobe Red Ceiling

Battery life will decrease using continuous tone or other coded patterns and under non-ambient environmental conditions.

Standards

The WAV-CRL, WAV-CWL, WAV-RL, and WAV-WL SWIFT Wireless AV Base is designed to comply with the following standards:

- UL 864 9th Edition and 10th edition
- NFPA 72

Agency Listings and Approvals

These listings and approvals apply to the modules specified in this document. In some cases, certain modules or applications may not be listed by certain approval agencies, or listing may be in process. Consult the factory for the latest listing status.
